

Silcoplast AG is an internationally competent manufacturer and supplier of high-quality silicone and plastic parts for various industries. Our customers are world-renowned suppliers with very high demands on quality and function.

We are looking for you! Become a plastics technologist EFZ at Silcoplast AG!

Plastics technologist EFZ

As an EFZ plastics technologist, you will learn everything about the manufacture and processing of plastic products. You will work with high-tech machines and modern production processes and be responsible for the quality assurance of our products. Your apprenticeship is varied and offers you exciting challenges in a future-orientated profession.

Your tasks

- Planning, controlling and monitoring production processes
- Operating and programming plastic injection moulding machines
- Maintenance and servicing of production systems
- Quality control of products and rectification of minor production errors
- Development and optimisation of manufacturing processes

Your profile

- Technical interest and manual dexterity
- Good understanding of maths and science
- Careful, precise and independent way of working
- A sense of responsibility and enjoy working in a team
- Completion of compulsory schooling, ideally with good grades in maths and science
- Enthusiasm for working with machines

What we offer

- Sound training with individual support from experienced specialists
- An international, successful company with sustainable future prospects and a friendly working atmosphere
- A technically broad and modern environment with interesting challenges
- Dynamic working atmosphere
- A wide range of training and development opportunities
- Attractive employment conditions and a pleasant working environment
- Support in starting an exciting career
